

CCEM Attestation Form

Canadian Centre for Electron Microscopy (CCEM) Academic User Attestation Form

As part of the commitment to safeguarding sensitive technologies and ensuring compliance with the Canadian government's Policy on Sensitive Technology Research and Affiliations of Concern (STRAC), all users of CCEM must attest to the following conditions before gaining access to CCEM facilities and services.

Please read the following statements carefully and provide your attestation by signing below.

1. Affiliation with Named Research Organizations (NROs)

I hereby attest that I am not currently affiliated with, employed by, or receive funding or in-kind support from any institution or organization listed as a Named Research Organization (NRO) by the Government of Canada. (List of NROs available [here](#))

2. Affiliation with Canadian Autonomous Sanctions List

I hereby attest that I am not currently affiliated with, employed by, or receive funding or in-kind support from any individual, institution, or organization listed as Canadian Autonomous Sanctions list by the Government of Canada. (List of Canadian Autonomous Sanctions list available [here](#))

3. Collaboration with Researchers from NROs

I attest that I do not engage in research collaborations, partnerships, or joint ventures with individuals or entities associated with Named Research Organizations (NROs). (List of NROs available [here](#))

4. Collaboration with Researchers Canadian Autonomous Sanctions list

I attest that I do not engage in research collaborations, partnerships, or joint ventures with researchers or entities associated with the Canadian Autonomous Sanctions list. (List of Canadian Autonomous Sanctions list available [here](#))

5. Purpose of Research and Use of Technology

I confirm that my use of the facilities, technologies, and expertise at CCEM is not for the purpose of:

- Advancing technology that will serve myself or a third party in breaking Canadian laws, international sanctions, or supporting activities that violate human rights.
- Contributing to the development or advancement of technologies that would be used by authoritarian regimes, their military or security apparatus, or for other purposes that would violate Canadian values and international norms.

6. Compliance with Canadian and International Laws

I further affirm that my research and any subsequent use of the data or technologies accessed or generated at CCEM will comply with all applicable Canadian laws, international sanctions, and ethical standards.

User Information:

Full Name:	Email Address:
Affiliation:	

Signature: By signing below, I attest that the above statements are true and accurate to the best of my knowledge, and I will notify CCEM in case of any future changes. I understand that providing false information or failing to meet these conditions may result in the termination of my access to CCEM facilities and may have further legal or institutional consequences.
