

# STaR Program

CCEM Student Travel and Research Program

Are you passionate about  
advancing your microscopy  
research?

CCEM is delighted to host external  
researchers at our facility in McMaster  
University located in Hamilton, ON

OPPORTUNITY FOR  
STUDENT RESEARCHERS

The Canadian Centre for Electron Microscopy (CCEM) invites you to bring your research projects to our state-of-the-art facility through the STaR Program. Access a world-class suite of electron and ion instrumentation and receive top-tier training in a supportive, expert-driven environment.

## WHAT WE OFFER

### TRAINING

Receive comprehensive training tailored to your research needs, ensuring you maximize the potential of our equipment.

### CORRELATIVE SUITE

Enhance your research with access to multi-length scale correlative analysis, including XCT, SEM, FIB, (HR)TEM, & APT.

### EXPERT STAFF

Work alongside our knowledgeable staff who will guide you through your research and provide invaluable insights.

### PREFERRED ACCESS

Enjoy priority access to instrument time and dedicated training sessions tailored to your research needs.

### TRAVEL / ACCOMMODATION COORDINATION

Receive assistance in arranging your travel and accommodation, making your stay stress-free.

### REDUCED / BULK FEES

Take advantage of our special rates, including the possibility of reduced or bulk fees.
